SUBJECT: DISCONTINUATION OF EVALUATION OF HOPEWELL DESIGNS INC.
APPLICATION FOR SEALED SOURCE AND DEVICE REGISTRATION
CERTIFICATE

Dear Mr. Vanderpool:

This letter is in response to your application dated April 3, 2018, requesting a sealed source and device (SSD) registration certificate for Model SG-101010 gamma gauge. On May 22, 2018, the staff sent you a request for additional information. On June 20, 2018, you requested discontinuation of the review of your application until the information in the request for additional information can be provided in its entirety.

Due to incomplete information, the U.S. Nuclear Regulatory Commission (NRC) staff is unable to complete a safety evaluation of your requested device and as requested we have discontinued the evaluation of your application (SSD Case No. 18-20). This action is taken without prejudice to submission of the required information. A new action will be opened once the NRC receives a complete response to its request for additional information dated May 22, 2018, per the requirements in Title 10 of *the Code of Federal Regulations* (10 CFR) 32.210 and the guidance provided in NUREG-1556, Volume 3, Revision 2. If you submit the response within 12 months from the date of your original application, you do not need to pay an additional application fee. Please note, when you decide to submit the requested information, ensure that you submit a complete response with sufficient information to allow the NRC staff to evaluate your device.

Proprietary information submitted to the NRC may be withheld from public disclosure, upon your request. To do this, you must follow the procedures in 10 CFR 2.390(b) including requesting withholding at the time the information is submitted and complying with the document marking and affidavit requirements set forth in 10 CFR 2.390(b)(1).

In accordance with 10 CFR 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component of NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.
