Christopher A. Cole  
Radiation Safety Officer  
HDR Engineering, Inc.  
310 W Hubbard, Ste 227  
Coeur d'Alene, ID 83814-2288

SUBJECT: LICENSE AMENDMENT

Dear Mr. Cole:

Please find enclosed Amendment No. 10 to NRC License No. 11-27778-01, removing three storage/use locations, as requested. An environmental assessment for this licensing action is not required since this action is categorically excluded under 10 CFR 51.22(c)(10)(v) and (14)(viii). You should review this license carefully and be sure that you understand all conditions. You can contact me at (817) 200-1286 if you have any questions about this license.

The supporting documentation also provided copies of the latest leak test results. The leak test results document that there was no evidence of leakage of radioactive material from the use/storage locations: 1) 418 South 9<sup>th</sup> Street, Suite 301, Boise, Idaho; 2) 1250 South Orchard Street, Boise, Idaho; and 3) 864 Baldy Mountain Road, Sandpoint, Idaho. The NRC staff has reviewed the supporting documentation. Based on the documentation submitted, the staff concluded that two Boise, Idaho locations and the Sandpoint, Idaho location, are suitable for unrestricted use in accordance with 10 CFR 20.1402, "Radiological Criteria for Unrestricted Use." Based on these conclusions, no further remediation or actions with respect to NRC regulated material is required.

**The enclosure transmitted  
herewith contains Official Use  
Only – Security-Related  
Information. When separated  
from this enclosure, this  
document is decontrolled.**

C. Cole

-2-

NRC will periodically inspect your radiation safety program. Failure to conduct your program according to NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC may result in enforcement action against you. This could include issuance of a notice of violation; imposition of a civil penalty; or an order suspending, modifying, or revoking your license as specified in the NRC Enforcement Policy. The NRC Enforcement Policy is available on the following internet address: <http://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

An electronic version of the NRC's regulations is available on the NRC Web site at [www.nrc.gov](http://www.nrc.gov). Additional information regarding use of radioactive materials may be obtained on the NRC Web site at <http://www.nrc.gov/materials/miau/mat-toolkits.html>. This site also provides the link to the toolbox for updated information on the revised regulations for naturally-occurring and accelerator-produced radioactive materials (NARM).

NRC's Regulatory Issue Summary (RIS) 2005-31 provides criteria to identify security-related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through the NRC's Agencywide Documents Access and Management System (ADAMS). The RIS may be located on the NRC Web site at: <http://www.nrc.gov/reading-rm/doc-collections/gen-comm/reg-issues/2005/>. Pursuant to NRC's RIS 2005-31, this letter and its enclosed materials license will not be made publicly available.

Thank you for your cooperation.

Sincerely,

**/RA/**
