**Subject:** [External\_Sender] Comments RE: Docket ID NRC-2018-0101 (License Renewal for FPL's Turkey Point)

Dear NRC Staff,

As a resident of South Florida, I am very concerned about the operation of Turkey Point until the early 2050s, especially since the plant is already contaminating nearby resources such as Biscayne Bay National Park and threatening our region's drinking water resources.

The cooling canals are NOT working yet they want to extend their use long term. Their studies to justify extending the life of the plant are based on decades old tide data.

The NRC needs to be aware that Turkey Point and the area around it has already experienced the negative effects of sea level rise and storm surges. The NRC needs to study a range of sea level rise projections and consider those impacts on the plant, the cooling canal system, and the surrounding community, including for emergency evacuation procedures and planning.

Thank you.

Sincerely,  
Mike Gibaldi  
4780 Pine Tree Dr Apt 1 Miami Beach, FL 33140-3151
