Subject: Withdrawal of Amendment 4 to the HFC-6000 Safety Platform Acceptance
Review

Ladies and Gentlemen:

In 2017, HF Controls formally requested the beginning of an Acceptance Review on Amendment 4 to the HFC-6000 Safety Platform, with the primary document of this Acceptance Review being RR901-107-10, and supplemental documents RR901-107-03, TR901-302-01, and VV901-300-10. Based on the NRC's feedback, HF Controls requests the withdrawal of this Acceptance Review effective June 22nd, 2018.

HF Controls thanks the USNRC for their feedback, and will be in communication with the USNRC in coming weeks to close the gap between the previously submitted documentation and USNRC expectations for the next submission.

We thank the agency for the work. If any further information for processing this withdrawal is required, please contact me immediately.

Yours Truly,

Eugene O'Donnell
V&V Department Manager
Doosan HF Controls
