**To:** karen.brunso@chickasaw.net  
**Cc:** Dozier, Tamsen  
**Subject:** Early Site Permit Application for the Clinch River Nuclear Site in Roane County, Tennessee  
**Attachments:** ML18171A186 The Chickasaw Nation.pdf

Ms. Brunso,

My name is Jennifer Davis and I am the lead archaeologist for the U.S. Nuclear Regulatory Commission (NRC) conducting the review of the environmental effects of issuing the Tennessee Valley Authority an early site permit (ESP) for the proposed construction and operation of two or more small modular reactors (SMRs) at the Clinch River site in Oak Ridge, Roane County, Tennessee. I spoke with you back in January about the proposed project.

The NRC has completed its preliminary environmental review and has prepared a draft environmental impact statement (EIS) for public comment. On April 20, 2018, the NRC sent you with a copy of the EIS on DVD (see attached file). As part of ongoing NHPA Section 106 consultation for this undertaking, I would like to follow up with your office to make sure your office received the DVD, and to find out if you have any questions, or comments.

The ESP application and review process makes it possible to evaluate and resolve safety and environmental issues related to siting potential future SMRs at the CRN Site. An ESP does not, however, authorize construction and operation of the SMRs. Such authorization would require a separate application by TVA to the NRC, necessitating additional NEPA and NHPA review. The comment period ends on July 13, 2018.

Link to draft EIS: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr2226/>

If you have any questions, please feel free to contact me by e-mail ([Jennifer.Davis@nrc.gov](mailto:Jennifer.Davis@nrc.gov)) or by phone at 301-415-3835. In addition, you may also contact the environmental project manager, Ms. Tamsen Dozier by email ([Tamsen.Dozier@nrc.gov](mailto:Tamsen.Dozier@nrc.gov)) or by phone at 301-415-2272.

Thank you,

Jennifer

Jennifer A. Davis  
Senior Project Manager  
Office of New Reactors  
U.S. Nuclear Regulatory Commission  
(301) 415-3835

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D.C. 20555-0001

April 20, 2018

The Honorable Bill Anoatubby  
Governor  
The Chickasaw Nation  
P. O. Box 1548  
Ada, OK 74821-1548

SUBJECT: SECTION 106 CONSULTATION AND NOTIFICATION OF THE ISSUANCE OF  
THE DRAFT ENVIRONMENTAL IMPACT STATEMENT FOR THE EARLY SITE  
PERMIT APPLICATION FOR THE CLINCH RIVER NUCLEAR SITE IN ROANE  
COUNTY, TENNESSEE

Dear Governor Anoatubby:

The U.S. Nuclear Regulatory Commission (NRC) staff is reviewing an application submitted by the Tennessee Valley Authority (TVA) for an early site permit (ESP) for the Clinch River Nuclear (CRN) Site near Oak Ridge, Tennessee. The U.S. Army Corps of Engineers, Nashville District (USACE), is a cooperating agency on the draft environmental impact statement (DEIS), which was prepared in accordance with Title 10 of the *Code of Federal Regulations* Part 51, the NRC's regulations that implement the National Environmental Policy Act (NEPA) of 1969, as amended. By letter dated April 20, 2017, the NRC staff notified you that in accordance with 36 CFR 800.8(c), the staff is using the NEPA process to comply with its obligations under Section 106 of the National Historic Preservation Act (NHPA) of 1966, as amended, in lieu of the procedures set forth in 36 CFR 800.3 through 800.6. A DVD of the DEIS, NUREG-2226, "Environmental Impact Statement for an Early Site Permit (ESP) for the Clinch River Nuclear Site: Draft Report for Comment" is enclosed for your information and review.

For your convenience, a Reader's Guide is attached to the DVD. The Reader's Guide is a detailed brochure to facilitate your understanding of the proposed action and its potential environmental impacts.

The NRC and USACE staff plan to hold two public meetings to discuss the analyses and results in the DEIS on Tuesday, June 5, 2018, at Noah's Event Venue, 1200 Ladd Landing Boulevard, Kingston, Tennessee. The first meeting will convene at 2:00 p.m. and will continue until 4:00 p.m., as necessary. The second meeting will convene at 7:00 p.m., with a repeat of the overview portions of the first meeting, and will continue until 9:00 p.m., as necessary. The meetings will be transcribed and will include: (1) a presentation of the contents of the DEIS; and (2) the opportunity for interested government agencies, organizations, and individuals to provide comments on the DEIS. Additionally, the NRC and USACE staff will host informal discussions one hour before the start of each meeting during which members of the public may meet with NRC and USACE staff. You and your staff are invited to attend.

In the DEIS, the NRC evaluated the potential effects of building and operating two or more small modular reactors on historic properties within the direct and indirect areas of potential effect, and described how TVA's programmatic agreement resolves potential adverse effects to historic properties. The historic and cultural resources analysis contained in the DEIS, is based on an environmental audit conducted by NRC staff of the CRN Site, review of historic and archaeological records at the Tennessee Historic Commission and the Tennessee Division of Archaeology offices, review of cultural resources field investigation reports completed by TVA, and NRC's ongoing consultation. Chapter 2 of the DEIS provides a discussion of the area of potential effects (APE), and a description of historic and cultural resources identified in the APE. Chapters 4 and 5 discuss impacts to historic and cultural resources from construction and operation including an assessment of effects to historic properties. Chapter 7 addresses cumulative impacts to historic properties and cultural resources. An ESP does not, however, authorize construction and operation of a nuclear power plant. Such authorization would require an additional application and review.

Pursuant to 36 CFR 800.8(c), the NRC requests that your office submit any information, comments, or concerns you feel are appropriate on the DEIS during the comment period, which ends on July 13, 2018. Comments can be submitted: (1) by e-mail to [ClinchRiverESPEIS@nrc.gov](mailto:ClinchRiverESPEIS@nrc.gov); or (2) in person during the public meetings. After consideration of public comments received, as well as information received through consultation, the NRC will prepare a final environmental impact statement, which is scheduled to be published in June 2019.

The DEIS is available through the NRC's Agencywide Document Access and Management System (ADAMS), which is accessible from the NRC's Web site at <http://www.nrc.gov/reading-rm/adams.html> under ADAMS Accession No. ML18100A220 and ML18100A223. In addition, the DEIS can be found online at the NRC's Clinch River Nuclear Web site at <http://www.nrc.gov/reactors/new-reactors/esp/clinch-river.html>.

If you have any questions concerning the NRC staff's environmental review of this ESP application, please contact Ms. Patricia Vokoun, NRC Environmental Project Manager for the CRN ESP project, at (301) 415-3470 or by e-mail at [Patricia.Vokoun@nrc.gov](mailto:Patricia.Vokoun@nrc.gov), or in her absence, please contact Ms. Tamsen Dozier at (301) 415-2272 or by e-mail at [Tamsen.Dozier@nrc.gov](mailto:Tamsen.Dozier@nrc.gov).

Sincerely,

Adrian Muñoz, Acting Branch Chief  
Licensing Branch 3  
Division of New Reactor Licensing  
Office of New Reactors
