Mr. Kills A Hundred:

Ms. Sarah Stokely from ACHP passed on your concerns to the NRC. I work in the Agreement State Programs Branch at the NRC and involved with the review of the Wyoming Agreement application. You raised concerns regarding the State's application for an Agreement. Although I planned to address a number of Wyoming Agreement and tribal specific concerns during the May 31st webinar, I can discuss your concerns with you and answer questions in further detail at your convenience.

Please let me know a convenient date and time for you to discuss this matter.

Regards,
Duncan White, Senior Health Physicist
Agreement State Program Branch

Subject: [External_Sender] RE: NRC Agreement State Program and WY Application: THPO Questions

Sandra,

The email Mr. Kills A Hundred shared with us covered a number of issues, some unrelated to NRC. The portion of his email pertinent to NRC includes the following concern:

Last week I sat in on a teleconference about the Strata Ross ISR project in Wyoming. One concern that was mentioned in the meeting was that Wyoming was going to be an agreement state soon. I have talked with other tribal reps and thpos about this and their position is to strongly fight the agreement state concept because of the government to government agreement. Even though I agree with this completely, I would like to have a plan "b" in the works. This is why I am writing to you. There was a ACHP rep that was either there at the meeting, or on-line, or on the telephone listening in and I didn't get to be there at the introductions or I didn't hear their nameanyway, I missed it. I will ask the facilitator for a list of people participating, however, if you know of the person that participated could you please give me their contact info.

You might direct further questions directly to Mr. Kills A Hundred.

Sarah
