Wm. H. Regan, Jr.
Chief, Environmental Projects Branch 4
Division of Reactor Licensing
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Regan:

This is in response to a letter from your office dated December 2, 1975 which requested our review and comment on the draft supplement to the final environmental statement for the Palo Verde Nuclear Generating Station, Units 1, 2 and 3, Arizona.

The proposed action does not conflict with existing or authorized plans of the Corps of Engineers. We have no comments concerning the impacts of the proposed plan.

The Corps of Engineers is currently conducting a Phoenix Urban Water Resources Study. This study, which is scheduled for completion in the fall of 1978, is being made to develop a comprehensive water resources plan which will fulfill all water-related needs. In the event that information relevant to water resources is desired or if we can be of assistance in any manner, please feel free to contact us. This may be done by contacting Mr. Henry W. Worthington, Chief, Urban Studies Section, Phoenix, Arizona (602) 261-4201.

Thank you for the opportunity to review and comment on the proposed action.

Sincerely yours,

GARTH A. FUQUAY
Chief, Engineering Division
