

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D.C. 20555-0001

August 29, 2018

Mr. Sam Shakir  
President and Chief Executive Officer  
AREVA Nuclear Materials, LLC  
1155 F Street, NW, Suite 800  
Washington, DC 20004

SUBJECT: TERMINATION OF SPECIAL NUCLEAR MATERIALS LICENSE NUMBER 2015 FOR THE AREVA NUCLEAR MATERIALS, LLC, EAGLE ROCK ENRICHMENT FACILITY (ENTERPRISE PROJECT IDENTIFICATION NUMBER: L-2018-LIT-0003)

Dear Mr. Shakir:

By letter dated May 14, 2018 (Agencywide Documents Access and Management System [ADAMS] Accession Number ML18151A476), you requested that the U.S. Nuclear Regulatory Commission (NRC) terminate Special Nuclear Materials License Number 2015 (SNM-2015) for the AREVA Nuclear Materials, LLC (ANM), Eagle Rock Enrichment Facility (EREF). The NRC staff has reviewed your request and concluded that termination of SNM-2015 should be approved. Therefore, SNM-2015 is hereby terminated, as requested.

Amendment 5 to SNM-2015, terminating the license, is provided in Enclosure 1 to this letter. The NRC staff report documenting its review for this licensing action is provided in Enclosure 2 to this letter.

The non-possessing facility security clearance, originally issued to AREVA Enrichment Services, LLC (AES) for the EREF pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR) Part 95, and later transferred from AES to ANM via NRC-approved transfer of control of SNM-2015 (see Order Number EA-16-201, dated September 30, 2016 - ADAMS Accession Number ML16264A317), is also being terminated. The NRC Office of Administration (ADM) is also terminating your personnel security clearance associated with the EREF. Following your receipt of the NRC's termination of SNM-2015, ADM staff will contact you to confirm termination of your clearance.

The NRC staff also evaluated your August 15, 2018, submittal (ADAMS Accession Number ML18227A161), requesting an amendment to the SNM-2015 materials license to correct ANM's corporate address. Your submittal was provided at the NRC staff request, following identification of a discrepancy between ANM's current corporate address and the address in the SNM-2015 license during the review of your license termination request. The NRC staff completed its review of your August 15, 2018, submittal and, as a result, Condition 2 of SNM-2015 was revised to reflect ANM's new corporate address.

This action closes efforts under Enterprise Project Identification Number L-2018-LIT-0003.

In accordance with 10 CFR Section 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component of the NRC's ADAMS. ADAMS is accessible from the NRC Web Site at <http://www.nrc.gov/reading-rm/adams.html>.

If you have any questions regarding this communication please contact Mr. Osiris Siurano-Perez, Project Manager, at 301-415-7827 or via e-mail at [Osiris.Siurano-Perez@nrc.gov](mailto:Osiris.Siurano-Perez@nrc.gov).

Sincerely,

**\RA\**

Brian W. Smith, Deputy Director  
Division of Fuel Cycle Safety, Safeguards  
and Environmental Review  
Office of Nuclear Material Safety  
and Safeguards
