

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

July 12, 2018

Mr. Robin DeLaBarre
Office of Nuclear Energy, Safety
& Security, Room 3320 HST
Bureau of International Security
& Nonproliferation
U.S. Department of State
2201 C Street, NW
Washington, DC 20520

Dear Mr. DeLaBarre:

Enclosed is an application, dated June 28, 2018, from Global Nuclear Fuel – Americas, L.L.C., received by the U.S. Nuclear Regulatory Commission, requesting Amendment No. 06 to its existing export license XSNM3066/05. This license presently authorizes the export of up to 720,000 kilograms (kg) uranium, containing 36,000 kg of U-235 to Mexico, as uranium dioxide (UO₂), in various forms.

The purpose of the amendment is to change the licensee point of contact and extend the license date of expiration from July 31, 2018, to July 31, 2023.

Since there are no changes to the terms and conditions of the existing license being requested, our office is processing this as a minor amendment. We intend to issue the requested license after the 30-day time period allotted for public review has expired, and it is determined that applicable export license criteria are met.

Sincerely,

A handwritten signature in black ink, appearing to read "Peter J. Habighorst".

Peter J. Habighorst, Chief
Export Controls and Nonproliferation Branch
Office of International Programs
