Sandra,

This all looks good to me. However, the bullet that states "NRC needs to lead a consultation with the Northern Arapaho on the WY agreement State Application. A webinar is not sufficient." needs to state "NRC needs to lead a consultation with tribes that consider the state of WY to be associated with their ancestral migratory routes."

Thank you for Consulting with the Northern Arapaho THPO.

Sincerely,

Mr. Oldman:

Thank you for taking the time to provide your views on the above topic. To summarize

- The Northern Arapaho Nation is opposed to WY's application to become an NRC agreement state
- The NRC has a legal obligation to consult with Tribal nations for a federal undertaking such as the transfer of authority to WY for project reviews
- The State of WY has legislation (SF101) that states that the Federal government's consultations under NHPA impact private property rights; the Northern Arapaho also oppose this legislation as it undermines Tribal consultation for federal undertakings

- The State of WY wants to exclude Tribes from consultation on projects regulated under the Agreement State
- The NRC needs to lead a consultation with the Northern Arapaho on the WY agreement State application. A webinar is not sufficient.

Please let me know if I adequately captured our conversation.

Thank you again for your feedback.

Sandy
