**Subject:** NRC webinar on WY Agreement State application  
**Date:** Wednesday, March 07, 2018 5:41:00 PM

---

Thank you, Teanna, for providing feedback on issues that you would like to have addressed in NRC's upcoming webinar on the WY Agreement State application. . Per our conversation, I think the project lead for the WY application can better answer some of the questions you had about WY's future regulations. I will provide your contact information to him. His number is 301 415-2598. The summary follows. Please let me know if I missed anything

- What happens to consultation with Tribal nations if WY takes over review of uranium recovery applications? Will Tribes be cut out of the process completely?
- What has NRC communicated to the State on WY on a consultation process with Tribes?
- There are 20-30 Tribes that have an interest in activity in WY. How will these Tribes be represented in this process?
- If there is a proposed project on BLM land, would Federal or State review regulations apply?

Best regards,  
Sandy
