Subject: Letter dated April 26, 2018 for License Amendment
Pages: 2

Mr. Stahly:

Per your letter dated April 26, 2018, the items on the next page are deficiencies which requires your response. **Please respond to this e-mail by Monday, July 16, 2018.** Our fax number is (817) 200-1263. **Please provide a response in a signed and dated letter in pdf format when responding via email. Please note that a representative of the corporation or legal entity filing the amendment must sign and date the response. In addition, please note that the representative signing the letter must be authorized to make binding commitments and to sign official documents on behalf of the applicant.** My email address is Jackie.Cook@nrc.gov. When responding to this e-mail, please include the license, docket, and control numbers located at the top of this page.

Thanking you in advance for your cooperation, assistance, and prompt response in this matter.

1. Please note that I cannot accept the NRC Form 313, Application for Materials License, signed by you as the proposed RSO. Please note that a representative of the corporation or legal entity filing the amendment must sign and date the amendment request (i.e. President or CEO). In addition, please note that the representative signing the letter must be authorized to make binding commitments and to sign official documents on behalf of the licensee.

If you can give us a letter or memo from your corporate management appointing you as the representative of the corporation authorized to make binding commitments and to sign official documents on behalf of the licensee, this will be sufficient.

2. Please note that it appears that responses to supplemental information for NRC Form 313, Application for Materials License in your amendment request dated April 26, 2018, references NUREG-1556, Vol. 1, Rev. 1.

Please note that NUREG-1556, Vol. 1, *Consolidated Guidance About Materials Licenses: Program-Specific Guidance About Portable Gauge Licenses* was superseded by NUREG-1556, Vol. 1, Rev. 2 in June 2016.

Please complete and resubmit the attached Appendix B of NUREG-1556, Vol. 1, Rev. 2, *Consolidated Guidance About Materials Licenses: Program-Specific Guidance About Portable Gauge Licenses* (<http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v1/>) which is the suggested format for Items 5 through 11 of NRC Form 313, Application for Materials License.

3. Please note the attached Radiation Safety Program to the amendment request dated April 26, 2018, has the old RSO's name listed in Items A. through C.

Please explain this discrepancy and update accordingly.
