General Comment

The U.S. Nuclear Regulatory Commission (NRC) is proposing to set aside federal regulations and deprive members of the public their legal rights by using a letter to the Nuclear Energy Institute (NEI) to permit nuclear plant owners to experiment with new fuel pellets and fuel rods in the nuclear power reactors in peoples' backyards without prior NRC review and approval, and without people getting a chance to agree or disagree with the experiment.

I VEHEMENTLY OPPOSE THIS ACTION.
