Dear NRC staff,

You must be kidding!! More nuclear reactors?! Less emergency preparedness!?

The TVA has no business increasing unsustainable energy risk at Clinch River with NO effort to manage energy efficiency or plan for renewable/sustainable energy sources.

You MUST reject the TVA's proposed SMR project. It's only a thinly disguised subsidy to the nuclear power industry.

NRC must withdraw the DEIS and perform a fair, accurate, objective analysis of TVA's site permit application, as well as the real alternatives of energy efficiency, wind, solar, and other renewable energy sources.
