## General Comment

Having lived in New Mexico, a state without any nuclear power plant, I am opposed to placing the nation's wastes from all nuclear power plants in a place that has chosen to not use nuclear power and who also is still facing problems protecting it's citizens from the long range health affects of the Trinity Bomb Site. That is an irony.

It is also the height of Big Brother pushing on the people it's agenda for storage of nuclear waste. IT is immoral and will live on as a testament to all that is wrong environmentally and socially.

It is also putting all peoples along the rail lines to transport this waste in danger. Again immoral.

Lorraine Stepenske, Saguache Colorado
