

U.S. NUCLEAR REGULATORY COMMISSION MANAGEMENT DIRECTIVE (MD)

MD 3.55	FORMS MANAGEMENT PROGRAM	DT-18-17
<i>Volume 3, Part 2:</i>	Information Management, Records Management	
<i>Approved By:</i>	David Nelson, Chief Information Officer	
<i>Date Approved:</i>	August 23, 2018	
<i>Cert. Date:</i>	N/A, for the latest version of any NRC directive or handbook, see the online MD Catalog	
<i>Issuing Office:</i>	Office of the Chief Information Officer Governance and Enterprise Management Services Division	
<i>Contact Name:</i>	Deborah Hersey	

EXECUTIVE SUMMARY

Management Directive (MD) 3.55, “Forms Management Program,” is revised to update guidance and make administrative changes. This revision—

- Incorporates clarification regarding the Paperwork Reduction Act (PRA),
- Updates the organizational structure and roles and responsibilities in the Office of the Chief Information Officer and the Office of Administration, and
- Updates the citation for the General Records Schedule.

I. POLICY

It is the policy of the U.S. Nuclear Regulatory Commission (NRC) to prepare, control, and process all official forms in accordance with the Paperwork Reduction Act of 1995; the Privacy Act of 1974, as amended (5 U.S.C. 552a); and the regulations of the General Services Administration (GSA) on the procurement and use of U.S. Government Standard and Optional Forms as defined in Title 41 of the *Code of Federal Regulations* (CFR) Part 102-194, "Standard and Optional Forms Management Program."

II. OBJECTIVES

- Ensure that all new NRC forms are developed with the option for use in electronic format.
- Ensure that the production, use, and distribution of forms are efficient and economical.
- Ensure that the creation and use of forms by the NRC are consistent with Federal standards and agency needs.
- Ensure agencywide forms are managed through the NRC Forms Management Officer.

III. ORGANIZATIONAL RESPONSIBILITIES AND DELEGATIONS OF AUTHORITY

A. General Counsel (GC)

Reviews all NRC forms for a Privacy Act Statement (PAS) to ensure they are legally sufficient and in accordance with the Privacy Act.

B. Chief Information Officer (CIO)

1. Oversees the agency's forms management program, as defined in 41 CFR Part 102-194, "Standard and Optional Forms Management Program."

2. Establishes agency policies and procedures for managing agency forms, including those that require Office of Management and Budget (OMB) review and Privacy Act assessment.
3. Appoints an NRC Forms Management Officer to coordinate forms activities for the agency.

C. Regional Administrators (RAs)

1. Appoint a point-of-contact (POC) to coordinate regional forms activities with the Information Management Services Branch (IMSB), Governance and Enterprise Management Services Division (GEMS), Office of the Chief Information Officer (OCIO), and provide the name and title of this person, and any replacement, to IMSB.
2. Approve region-specific forms for staff use in coordination with the NRC Forms Management Officer.

D. Director, Division of Facilities and Security, Office of Administration (ADM)

1. Obtains all U.S. Government standard and optional forms that are required for NRC headquarters use.
2. Maintains the inventory of NRC and U.S. Government standard and optional forms at the NRC supply room, as needed.
3. Prints forms as requested by the NRC Forms Management Officer, OCIO.

E. NRC Forms Management Officer, Information Management Services Branch (IMSB), Governance and Enterprise Management Services Division (GEMS), Office of the Chief Information Officer (OCIO)

1. Receives and reviews all requests for new, revised, and reprinted agency forms and determines if the requests are warranted.
2. Designs and controls new, revised, and reprinted agency forms to ensure the design is user-friendly and meets NRC standards.
3. Automates NRC, standard, optional, and other U.S. Government agency forms and ensures the forms are current and available to staff in the NRC Forms Library.
4. Coordinates with the NRC Clearance Officer in OCIO/GEMS on the creation of new, and revision of existing, NRC forms to determine the need for OMB review and clearance.
5. Provides new and revised NRC forms to the NRC Freedom of Information Act (FOIA) and Privacy Act Officer in OCIO for review to ensure that a current PAS is included

on those forms where information is collected from individuals, and that will be maintained in a system of records in accordance with the Privacy Act.

6. Coordinates with regional POCs on the creation of new, and revision of existing, regional forms.
7. Coordinates with the Agency Records Officer (ARO) in OCIO on the creation of new, and revision of existing, forms to ensure that information being collected has a retention schedule that has been approved by the National Archives and Records Administration, as applicable.

F. Agency Records Officer (ARO), Information Management Services Branch (IMSB), Governance and Enterprise Management Services Division (GEMS), Office of the Chief Information Officer (OCIO)

Oversees the agency's day-to-day recordkeeping requirements.

IV. APPLICABILITY

The policy and guidance in this management directive apply to all NRC employees and contractors.

V. DIRECTIVE HANDBOOK

Handbook 3.55 contains standards, guides, and procedures for implementing the NRC forms management program. Handbook 3.55 does not contain standards, guides, or procedures for informal working-level forms (e.g., branch or division forms).

VI. DEFINITIONS

Optional Form (OF)

A form developed and recommended for use by two or more Federal agencies. The optional form (OF) normally is generated because of a common functional need or convenience and is approved by GSA for nonmandatory use (see 41 CFR 101-26.302 and 41 CFR 102-194.15). NRC or local forms will not be developed for use if an OF is available and can be used to satisfy the NRC requirement.

Public Use Forms

Reports, applications, questionnaires, interview guides, and other forms used to collect information from the public for use in regulatory programs. Such forms may be subject to the requirements of the Paperwork Reduction Act (44 U.S.C. 3501, et seq.) if they meet certain criteria. These criteria are discussed in MD 3.54, "NRC Information Collections Program."

Standard Form

A form prescribed by a Federal agency, pursuant to its authority, and approved by the General Services Administration for mandatory use by all U.S. Government agencies (see 41 CFR 101-26.302 and 41 CFR 102-194.10). This mandatory use is generally set forth in the regulations of the prescribing agency.

III. FORMS PROCESSING AND PRINTING, PROCUREMENT, AND SUPPLY AND STOCKING	6
A. Processing and Printing.....	6
B. Procurement of U.S. Government Standard and Optional Forms	7
C. Supply and Stocking.....	7

I. FORMS MANAGEMENT SERVICES

A. Development

Organizational units at the U.S. Nuclear Regulatory Commission (NRC) headquarters or regional points-of-contact (POCs) initiating a new form or revising an existing form should determine that—

1. The information requested is essential and not available from another source.
2. The resources for collecting the information are reasonable and worth the benefits to be derived.
3. Each data element on the form is necessary for agency business, especially requests for—
 - (a) Federal Privacy Act of 1974, as amended (5 U.S.C. 552a) information;
 - (b) Personally identifiable information (PII);
 - (c) Sensitive Unclassified Non-Safeguards Information (SUNSI).
4. Estimates have been made for the number of users, frequency of use, and annual use rate.
5. The proposed distribution of the completed form is essential, and distribution is kept to a minimum.
6. The NRC Forms Management Officer will send a copy of [NRC Form 162](#), “Request for Review of Form for Privacy Act Statement,” available in the [NRC Forms Library](#), and a copy of the revised form to the Agency Records Officer (ARO) in the Office of the Chief Information Officer (OCIO). The ARO will determine whether there is an appropriate records retention schedule for the information collected.

7. The ARO is responsible for overseeing the agency's day-to-day recordkeeping requirements in accordance with Office of Management and Budget (OMB) Memorandum M-12-18, "Managing Government Records Directive," dated August 24, 2012.

B. Requesting a New Form, Revising a Current Form, and Reprinting a Form

1. A new or revised NRC form will be automated, and the electronic form will be available in the NRC Forms Library for agencywide use and on the NRC public Web site for public usage. The originator may request and justify an exception to this process when requesting a new form or revising a current form.
2. The originator will request a new form or request revision of a current form by completing all applicable data elements on [NRC Form 160](#), "Request for Forms Management Services."
 - (a) The NRC Form 160 must be approved by a branch chief or above. The justification must include the prescribing regulation, management directive (MD), or other instruction. The originator will submit the request by e-mail to the Information Management Services Branch (IMSB), Governance and Enterprise Management Services Division (GEMS), OCIO, hereafter referred to as IMSB. (Forms.Resource@nrc.gov). The originator should include a scan of the completed and signed NRC Form 160, a copy of the rough draft of the proposed new form, and/or a mockup of the revised form. The form requester should allow for sufficient time for processing (see Section III.A of this handbook for lead time).
 - (b) The NRC Forms Management Officer will send NRC Form 162, "Request for Review of Form for Privacy Act Statement," and a copy of the proposed new NRC form to IMSB for review to determine the need for a Privacy Act Statement (PAS), in accordance with the Privacy Act of 1974, as amended. If the proposed new form solicits information from individuals about themselves, and that information will be maintained in a Privacy Act system of records, the Privacy Act Officer (PAO), in coordination with the originator, will draft a PAS, obtain approval from the Office of the General Counsel (OGC), and return the form with the approved PAS to the NRC Forms Management Officer. The NRC Forms Management Officer will include the approved PAS as part of the form. If the form requests PII, the FOIA Officer and PAO will verify with the originating office or region that the PII is necessary for agency business.

- (c) The NRC Forms Management Officer will send for review [NRC Form 164](#), “Request for Review of Form for Records Retention Schedule,” and a copy of the proposed new NRC form to IMSB to determine if the information being collected has a retention schedule approved by the U.S. National Archives and Records Administration (NARA). If the information currently does not have a schedule, IMSB will work with the form requester to create a new proposed records retention schedule for the information.
3. To reprint an NRC form, organizational units at headquarters or Forms Liaison Officers in the regions will submit the request by e-mail to Reproduction.Resource@nrc.gov. The requester should include a scan of the signed, completed [NRC Form 20](#), “Request for Printing and Copying Services,” and a copy of the requested form.

C. Form Approval

The NRC Forms Management Officer will review and approve each request for forms management services related to a new or an existing form before designing a new form or printing an existing form. The NRC Forms Management Officer will—

1. Determine whether or not proposed data are available from another source.
2. Determine if the form will be available in electronic format, printed format, or both.
3. Ensure that continued use of the form is warranted.
4. Determine the need for coordination with other NRC offices or other Federal agencies.
5. Determine that the form complies with Privacy Act requirements, including verification that requests for PII and SUNSI are necessary for agency business.
6. Determine that the data collected by the form has a NARA-approved retention schedule.

D. Request for Exception to U.S. Government Standard Form Use

Organizational units at headquarters or Forms Liaison Officers in the regions may request an exception to the required use of U.S. Government Standard Forms. Submit a written request and justification to IMSB (Forms.Resource@nrc.gov) in sufficient time to allow the General Services Administration (GSA) 60 days for processing.

E. Design and Construction Standards

IMSB, to the extent practicable, will incorporate standard design practices when designing and formatting new or revised forms.

F. Discontinuance of an Existing Form

One record copy of each form and related instructions and documentation showing the inception, scope, and purpose of the form should be destroyed 5 years after the form is superseded, discontinued, or canceled. Background materials, requisitions, specifications, processing data, and control records should be destroyed when the related form is discontinued, superseded, or canceled. To discontinue a form, staff must follow the schedule set forth in the General Records Schedule (GRS), Schedule 4.1, Item 040. Organizational units at headquarters or Forms Liaison Officers in the regions promptly will notify IMSB by memorandum or e-mail (Forms.Resource@nrc.gov) when a form becomes obsolete.

II. REQUESTING REVIEW AND CLEARANCE FROM OTHER FEDERAL AGENCIES**A. Public Use Forms**

1. Under the provisions of the Paperwork Reduction Act of 1995, an agency may not collect information that solicits answers to identical questions posed to, or identical reporting or recordkeeping requirements imposed on, 10 or more persons, without first obtaining approval from OMB. This does not include current employees of the Federal Government (including military reservists and members of the National Guard while on active duty) when acting within the scope of their employment, but it does include retired and other former Federal employees.
2. Organizational units at headquarters and Forms Liaison Officers in the regions proposing a public use form must submit a request, completed in accordance with MD 3.54, "NRC Information Collections Program," to the Information Services Branch (ISB) in sufficient time to ensure the established milestone schedules are met (see Section III.A of this handbook). The NRC Forms Manager will send all NRC Forms to ISB to be reviewed as described in MD 3.54. All documents and electronic forms or systems that request or impose information collections must contain a Paperwork Reduction Act Statement. This does not apply to information collections addressed to nine or fewer persons within a 12-month period. However, OMB has deemed that any recordkeeping or reporting requirement contained in a rule of general applicability involves 10 or more persons, and presumes that any collection of information addressed to all or a substantial majority of an industry involves 10 or more persons.

B. U.S. Government Standard and Optional Forms

1. The Federal Management Regulation (FMR) (Title 41 of the Code of Federal Regulations Section 101-26.302, "Standard and Optional Forms," and Part 102-194) set forth procedures for—

- (a) Prescribing standard forms for mandatory use by all Federal agencies,
 - (b) Adopting an optional form for use by more than one Federal agency,
 - (c) Making revisions to standard or optional forms, and
 - (d) Requesting an exception to use an agency form rather than a Standard Form.
2. Organizational units at headquarters and Forms Liaison Officers in the regions proposing any of these actions must submit a written request and justification by e-mail to Forms.Resource@nrc.gov in sufficient time to allow GSA 60 days for processing.

C. Other Federal Agency Forms

The NRC uses a limited number of other Federal agency forms. Direct any questions regarding the use of other agency forms to IMSB at the forms e-mail address, Forms.Resource@nrc.gov.

III. FORMS PROCESSING AND PRINTING, PROCUREMENT, AND SUPPLY AND STOCKING

A. Processing and Printing

The processing time for review, analysis, design, approval of design, required clearances, and printing (if not an electronic format) depends on the complexity of the individual form. Offices should consider the following lead times for forms processing.

1. The forms process requires a lead time of 6 to 8 weeks to create a form depending on the complexity of the form. In addition, if complex, the form may be contracted out for creation.
2. Most NRC forms are printed by the Multimedia, Graphics and Storage Distribution Branch (MGSDDB), Division of Facilities and Security (DFS), Office of Administration (ADM). Requests for printing require 1 to 2 weeks for completion, depending on the workload in both OCIO and ADM (see Section I.B.3 of this handbook).
3. The Government Publishing Office (GPO) requires 4 to 6 weeks to print a form, depending upon the complexity of the form or the quantity requested. The NRC Forms Management Officer will send an NRC Form 20, "Request for Printing and Copying Services," to the ADM printing specialists (Reproduction.Resource@nrc.gov). See the [ADM Web site for printing services](#) for the contact information.
4. Specialty forms (carbon interleaved sets, chemical transfer sets, marginally punched continuous forms, etc.) require 6 to 8 weeks because the request must be contracted to commercial printers for reproduction.

5. Allow an additional 60 days or more for approvals when outside clearances are necessary (e.g., from GSA or OMB).

B. Procurement of U.S. Government Standard and Optional Forms

NRC headquarters organizations must submit requests for standard and optional forms electronically to [GSA](#). Submit requests through the GSA Web site at <http://gsa.gov/portal/forms/type/TOP>.

C. Supply and Stocking

1. Paper stock of electronically available NRC forms will be maintained only in justified, rare instances. Electronic NRC forms are available in the [NRC Forms Library](#).
2. NRC forms, U.S. Government Standard and Optional Forms, and other Federal agency forms are listed numerically and alphabetically in the NRC Forms Library and available at [GSA](#).
3. With regard to paper-only forms at the NRC (those forms not available electronically), it is standard practice for ADM to physically stock certain forms in the supply store, such as cover sheets and carbonless forms (except as identified under Section III.C.5 below).
4. In special situations, it is more economical and practical for the NRC headquarters program office or regional office to maintain the paper stock. This includes situations where the program office or regional office is the sole user of a form, and the annual usage and storage requirements do not impose space problems.
5. Offices maintaining forms stock should replenish stock in sufficient time to ensure that stock is never depleted. An office must request revisions to forms for which it maintains stock, in accordance with Section I.B of this handbook.
