U.S. NUCLEAR REGULATORY COMMISSION  
Washington, D.C. 20555

Gentlemen:

I am a student at Glendale College in Phoenix. I am writing a paper on the specific topic of nuclear energy used as fuel in industrial and residential settings. I have researched the subject at my local level, but would certainly appreciate receiving any material you have on the subject.

I have approximately five weeks to complete the project and would therefore request that you expedite the materials if at all possible.  
Thank you,

Sincerely,
