**INDIANA & MICHIGAN POWER COMPANY**

P. O. BOX 18  
 BOWLING GREEN STATION  
 NEW YORK, N. Y. 10004

June 11, 1975

Docket No. 50-315  
 DPR No. 58

Mr. Karl Kniel, Chief  
 Pressurized Water Reactors  
 Branch No. 2  
 Directorate of Licensing  
 U.S. Nuclear Regulatory Commission  
 Washington, D.C. 20555

Dear Mr. Kniel:

The Order For Modification of License for the Donald C. Cook Nuclear Plant Unit 1, published in the Federal Register on December 27, 1974, requires that a re-evaluation of Emergency Core Cooling System performance be conducted. This is to be in accordance with an acceptable evaluation model which conforms to the provisions of 10CFR Part 50 Section 50.46 and is to be submitted no later than June 27, 1975.

We received a draft of an analysis which will form the basis for the re-evaluation from Westinghouse Electric Corporation on June 3, 1975. However, the analysis is not complete and Westinghouse informs us that we will not receive the completed analysis until June 16, 1975. Changes to our Technical Specifications require review by both the Plant Nuclear Safety Review Committee and the AEPSC Nuclear Safety and Design Review Committee. Because of the incomplete information at this time and our desire to perform a thorough evaluation, we will not be able to complete the required review and submit the analysis to the Nuclear Regulatory Commission until July 28, 1975.

Mr. Karl Kniel

- 2 -

June 11, 1975

Therefore, we respectfully request an extension of time for the submittal of the re-evaluation of emergency core cooling system performance until July 28, 1975.

Very truly yours,

John Tillinghast  
Vice President

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that this is essential for ensuring the integrity of the financial system and for providing a clear audit trail.

2. The second part of the document outlines the specific procedures that must be followed when recording transactions. It details the steps from initial entry to final review and approval.

3. The third part of the document discusses the role of the accounting department in ensuring that all transactions are recorded accurately and in a timely manner. It highlights the importance of communication and collaboration between different departments.

4. The fourth part of the document provides a detailed overview of the accounting system used by the organization. It describes the various components of the system, including the general ledger, subsidiary ledgers, and the trial balance. It also discusses the methods used to reconcile accounts and to prepare financial statements.
