Subject: RE: Question Regarding Renewal of Export License XSNM-3066
Date: Wednesday, August 08, 2018 11:32:57 AM

Debbie,

We will remove Instituto Nacional De Investigaciones Nucleares (ININ) from your application for license amendment XSNM3066/06 and proceed with issuing the license.

Thank you for your quick turnaround.

Jane

Subject: [External_Sender] Question Regarding Renewal of Export License XSNM-3066

Jane, in follow up to our conversation Monday morning regarding whether Instituto Nacional De Investigaciones Nucleares (ININ), Carretera Mexico-Toluca, KM 36.5, Salazar Edo De Mexico should be listed on page 1, field 8 as a (Fuel Fabricator) and on Page 3 as (Reload fuel for Laguna Verde, Units 1 and 2), it has been determined that ININ no longer needs to be listed on the Export License at all.

This is the information that was provided to me: "Many years ago, GNF gave permission to The Instituto Nacional De Investigaciones ININ to fabricate 8 fuel bundles in Mexico. That's why they are listed as Fuel Fabricator. During the Obama administration (about 4 years ago), the Government ordered to recover the bundles and brought back to the USA due the No Nuclear Proliferation policy. Therefore there is no need to keep them named on the license".

I did confirm that the next shipment to Laguna Verde will be Mid-November.

Please let me know if you have any other questions.

Have a good day.
