SUBJECT: FOREIGN OWNERSHIP, CONTROL, OR INFLUENCE INFORMATION AND
STANDARD PRACTICE PROCEDURES PLAN UPDATES (ENTERPRISE
PROJECT IDENTIFICATION L-2018-LRL-0002)

Dear Mr. Murray:

By letter dated May 11, 2018 (Agencywide Documents Access and Management System [ADAMS] Accession Number ML17179A316), in accordance with Title 10 of the *Code of Federal Regulations* (10 CFR) Paragraphs 95.17(a)(1) and 95.19(c), you provided an update to Foreign Ownership, Control, or Influence (FOCI) information. This update provided an SF328, *Certificate Pertaining to Foreign Interests*, for Global Nuclear Fuels-Americas, LLC (GNF-A) and Global Nuclear Fuel Holding Company, LLC (GNF-H), reflecting correspondence submitted on November 30, 2017 (ADAMS Accession Number ML17334A852), which provided notice involving a transaction between non-controlling parent holding companies, to include an organizational chart showing the ownership structure following the planned transaction. Also included in the FOCI submittal was the updated lists of Owners, Officers, Directors, and Executive Personnel (OODEP) for GNF-A and GNF-H. Changes in personnel occupying key management positions were described in response to the SF-328 questions in the OODEP lists. On July 12, 2018, you responded (ADAMS Accession Number ML18193B079) to a Request for Additional Information (RAI) sent to you on June 28, 2018 (ADAMS Accession Number ML18215A098), regarding an update to the OODEP.

During this period, you also submitted an update on June 13, 2018 (ADAMS Accession Number ML18164A175) to the non-possessing GNF-A Standard Practice Procedures Plan (SPPP) in accordance with 10 CFR 95.19(b)(1). This update was included as a part of this review, also being under the Office of Nuclear Security and Incident Response Division of Security Operations responsibility. The update to the SPPP is required for the designation of a new facility security officer, though considered to be a minor change.

Based on the review of the submitted correspondence, the staff continues to find that the conditions imposed to mitigate FOCI concerns are adequate. The staff finds that FOCI issues are adequately addressed and that the correspondence submitted on May 11, 2018 and the response to the RAI on July 12, 2018 are acceptable. Under 10 CFR 95.17(a)(1), a licensee must report any changes that may affect its status concerning FOCI within 30 days. The staff reviewed the update to the SPPP and finds that the also finds the update to the SPPP is acceptable and in accordance with 10 CFR 95.19(b)(1).

S. Murray

In accordance with 10 CFR Section 2.390 of the U.S. Nuclear Regulatory Commission's (NRC's) "Agency Rules of Practice and Procedure," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component of NRC's ADAMS.
