**Subject:** [External\_Sender] USNRC Docket No. 72-1051

I am concerned about the design life of the storage system being only 40 years in the thin singlewall canisters being used please make sure the underground vaults are big enough to allow for a second and closing canister and please make sure the system meets the HELMS criteria including 1000 year design life , 24/7 monitoring, and plans for hardened facility. Sincerely , Lawrence Webb
