

In Reference TO Docket ID NRC-2018-0052

I AS A CONCERNED CITIZEN FOR MY CHILDREN AS WELL AS MY COMMUNITY ALMOST VOICE MY CONCERN ON THIS TOPIC. I'LL TRY TO BE BRIEF, I BELIEVE IF PEOPLE STOP THINKING ABOUT DOLLARS AND THINK WITH A LITTLE SENSE NOT ONLY WOULD WE BE COST EFFECTIVE BUT IN THE LONG RUN ELIMINATE THE PROBLEM BEFORE IT OCCURS. I FOR ONE DO NOT WANT ALL THE NUCLEAR WASTE COMING HERE. OF COURSE WE'RE SUPPOSED TO BUY INTO THE IDEA IT WILL BE SAFE THEY WILL STAY COOLED ECT ECT. HERE'S ONE PROBLEM POWER OUTAGE I CAN SUM IT UP RIGHT THERE. IF THIS WERE TO HAPPEN BY WEATHER, NATURAL DISASTER, EMP, WHATEVER COULD BE THE CAUSE THERE WOULD BE A CATASTROPHE. JUST BECAUSE WE'RE A SMALLER POPULATED AREA, SO IF SOMETHING WERE TO HAPPEN IT WOULDN'T SEEM LIKE A "TRAGEDY" BECAUSE A LOWER AMOUNT OF PEOPLE WOULD BE KILLED, CONTAMINATED, INFECTED, ECT. BY THIS BEING HERE DOES NOT MEAN ITS OK TO PUT US IN THAT SITUATION AND MAKE US A STATISTIC.

Thank YOU,

Todd Coates
(Concerned American Citizen)

P.S. NO WASTE !!!
