Re: Dr. Krishna P. Singh, President & CEO of Holtec International's letter to the NRC Chairman Kristine Svinicki, Re: HI-STORE CIS; NRC Docket #1051, Subject: Intervenor Group's letter dated July 19, 2018, dated July 30, 2018 [Document No. 5025033], I would like to set the record straight on a couple points.

Re: We can't identify any of the signers of the July 19, 2018 letter who attended the hearings in person.

I was there myself, representing Beyond Nuclear on behalf of our large number of members and supporters in NM. I attended the NRC HQ meeting by phone on April 25, 2018 (because I was already in NM, preparing for the next three meetings there), as well as attending, in person, the meetings in Roswell, Hobbs, and Carlsbad, in late April/early May 2018.

Re: The fact that this group has waited until 11 days before the expiration date of the public comment period to petition a three-month delay reveals their true intent, which is to use as many legal stratagems as possible to slow down the progress of our project.

Alas, a coalition of 52 groups had asked for the three-month extension in early May as well. This included numerous NM groups.

Sincerely,

--
