Date: Thursday, August 02, 2018 1:07:48 PM

Greg,

Thank you for the response. NRC accepts Uranium One's revisions. The language below will appear in the license.

9.9 Before engaging in any developmental activity not previously assessed by the NRC, the licensee shall administer a cultural resource inventory. All disturbances associated with the proposed development will be completed in compliance with the National Historic Preservation Act of 1966 (as amended) and its implementing regulations (36 CFR Part 800), and the Archaeological Resources Protection Act of 1979 (as amended) and its implementing regulations (43 CFR Part 7).

To ensure that no unapproved disturbance of cultural resources occurs, any work which results in the discovery of previously unknown cultural artifacts shall stop. The artifacts shall be inventoried and evaluated in accordance with 36 CFR Part 800, and no additional disturbance will be authorized until the licensee has received approval from the NRC to proceed.

Before engaging in any activity in T34N R73W that could physically disrupt or disturb inventoried cultural sites that have been designated as eligible for the National Register of Historic Places, the licensee shall ensure that such activity will avoid eligible Sites 48CO3036 and 48CO3037 by implementing a 100-foot buffer during all phases of the project.

Thanks again,
Ashley Waldron

Ashley,

Thank you for reaching out to us. Sorry for the delay in providing a response. We accept the language in the license condition with the exception of the item highlighted below.

Sincerely,
Greg

Greg W. Kruse, WY PG-3459

Subject: Review of SUA-1341 License Condition 9.9
Importance: High

Hello Donna, Greg,

I have not heard back from Scott, so I'm following up to see we can get acceptance of the proposed license condition (see below). We need a response as soon as possible so that we can make the Final Environmental Assessment publicly available by tomorrow, August 3rd.

See attached email for background information.

Please let me know if you have any questions.

Thank you,

Ashley Waldron
Project Manager
U.S. NRC

Subject: Review of SUA-1341 License Condition 9.9
Importance: High

Hi Scott,

Please find below the proposed revisions to SUA-1341 license condition 9.9.

Proposed changes in **BOLD**.

9.9 Before engaging in any developmental activity not previously assessed by the NRC, the licensee shall administer a cultural resource inventory. All disturbances associated with the proposed development will be completed in compliance with the National Historic Preservation Act of 1966 (as amended) and its implementing regulations (36 CFR Part 800), and the Archaeological Resources Protection Act of 1979 (as amended) and its implementing regulations (43 CFR Part 7).

To ensure that no unapproved disturbance of cultural resources occurs, any work **which** resulting in the discovery of previously unknown cultural artifacts shall ~~cease~~ **stop**. The artifacts shall be inventoried and evaluated in accordance with 36 CFR Part 800, and no **additional** disturbance shall occur **will be authorized** until the licensee has received authorization **approval** from the NRC to proceed.

Before engaging in any activity in T34N R73W that could physically disrupt or disturb inventoried cultural sites that have been designated as eligible for the National Register of Historic Places, the licensee shall ensure that such activity will avoid eligible Sites 48CO3036 and 48CO3037 by implementing a 100-foot buffer during all phases of the project and any other appropriate measures.

Uranium One's acceptance of the revisions to license condition 9.9 are needed no later than COB August 1st. Your timely response is appreciated.

Please let me know if you have any questions.

Thank you,

Ashley Waldron
