Regulatory

File

February 6, 1974

Mr. Daniel R. Muller, Assistant Director  
for Environmental Projects  
Directorate of Licensing  
Office of Regulation  
U. S. Atomic Energy Commission  
Washington, D. C. 20545

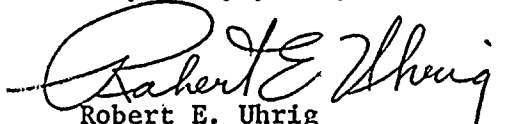

Dear Mr. Muller:

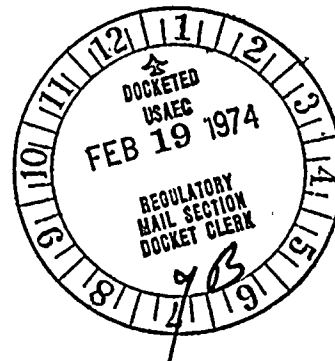

Re: Docket No. 50-250 and 50-251  
Turkey Point Plant Units Nos. 3 and 4

Enclosed are ten (10) copies (with an additional 10 copies to be forwarded next week) of "A Summary Report of the Turkey Point Cooling Canal System." As you are aware, under the Final Judgement Civil Action No. 70-328-CA, Florida Power & Light Company is required by Section IV 13 to submit a report specifying the results of trial operation and testing of the final cooling system. The report satisfies this requirement and is being distributed to all concerned federal, state and local agencies.

Florida Power & Light Company naturally will continue to monitor the operation of the closed cooling canal system, and will report this to AEC in accordance with the requirements established by the Environmental Tech Specs.

Very truly yours,

  
Robert E. Uhrig  
Director of Nuclear Affairs

REU:nch  
Encl. (10)

cc: Mr. Jack R. Newman
