Director of Nuclear Reactor Regulation
Attn: Mr. Victor Stello, Director
Division of Operating Reactors
U. S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Stello:

Re: Turkey Point Units 3 and 4
Docket Nos. 50-250 and 50-251
Proposed Amendment to Facility
Operating Licenses DPR-31 and DPR-41

In accordance with 10 CFR 50.30, Florida Power & Light Company submits herewith three (3) signed originals and forty (40) copies of a request to amend Appendix A of Facility Operating Licenses DPR-31 and DPR-41.

This proposal has been prepared in response to a September 22, 1977 letter from Mr. George Lear of your staff requesting that we submit a proposal to delete the requirement in our Technical Specifications for an Annual Operating Report. The proposed amendment is described below and is shown on the attached Technical Specification pages bearing the date of this letter in the lower right-hand corner.

Pages 6-16 through 6-18

Specification 6.9.1.b (Annual Operating Report) is revised. The due date for the Monthly Operating Report in Specification 6.9.1.c is revised from the "tenth" to the "fifteenth" of each month following the calendar month covered by the report.

Mr. Lear's letter also requested that we concurrently modify the content of our required Monthly Operating Report in accordance with three revised formats which accompanied his September 22 letter. We plan to use the revised formats starting with our monthly report for January, 1978. Along with the three report formats, we will provide a monthly "Narrative Summary of Operating Experience" that describes the operation of the facility, including major safety-related maintenance. In lieu of the 1977 Annual Operating Report we will submit a one-time only "Narrative Summary of Operating Experience" for calendar year 1977. To accommodate submittal of the expanded monthly report

Director of Nuclear Reactor Regulation

without affecting our existing organization, we request that the due date be extended from the tenth to the fifteenth of each month following the calendar month covered by the report.

The proposed amendment has been reviewed by the Turkey Point Plant Nuclear Safety Committee and the Florida Power & Light Company Nuclear Review Board. They have concluded that it does not involve an unreviewed safety question.

Very truly yours,

Al Schwartz

REPORTING REQUIREMENTS

In addition to the applicable reporting requirements of Title 10, Code of Federal Regulations, the following identified reports shall be submitted to the Director of the appropriate Regional Office of Inspection and Enforcement unless otherwise noted.

6.9.1. ROUTINE REPORTS

- a. Startup Report A summary report of plant startup and power escalation testing shall be submitted following (1) receipt of an operating license, (2) amendment to the license involving a planned increase in power level, (3) installation of fuel that has a different design or has been manufactured by a different fuel supplier, and (4) modifications that may have significantly altered the nuclear, thermal, or hydraulic performance of the plant. The report shall address each of the tests identified in the FSAR and shall in general include a description of the measured values of the operating conditions or characteristics obtained during the test program and a comparison of these values with design predictions and specifications. Any corrective actions that were required to obtain satisfactory operation shall also be described. Any additional specific details required in license conditions based on other commitments shall be included in this report.

Startup reports shall be submitted within (1) 90 days following completion of the startup test program, (2) 90 days following resumption or commencement of commercial power operation, or (3) 9 months following initial criticality, whichever is earliest. If the Startup Report does not cover all three events (i.e., initial criticality, completion of startup test program, and resumption or commencement of commercial power operation), supplementary reports shall be submitted at least every three months until all three events have been completed.

- b. A tabulation of occupational exposure data shall be submitted annually.
