

JAN 27 1975

Docket Nos: 50-250/251

Florida Power & Light Company
ATTN: Mr. J. K. Hays,
Plant Superintendent - Nuclear
Turkey Point Plant
P. O. Box 3100
Miami, Florida 33101

Gentlemen:

This is in reply to your letter, dated January 15, 1975 regarding changes in your operator requalification program.

We have reviewed your proposals and have determined that the annual examination may be scheduled for March 1975. Also, those individuals presently enrolled in the senior operator training program need not be administered the requalification annual examination if they pass NRC senior operator examinations scheduled for March 7, 1975. We will inform you of what lectures the successful candidates should attend after grading the examinations.

I hope this information will be of use to you.

Sincerely,

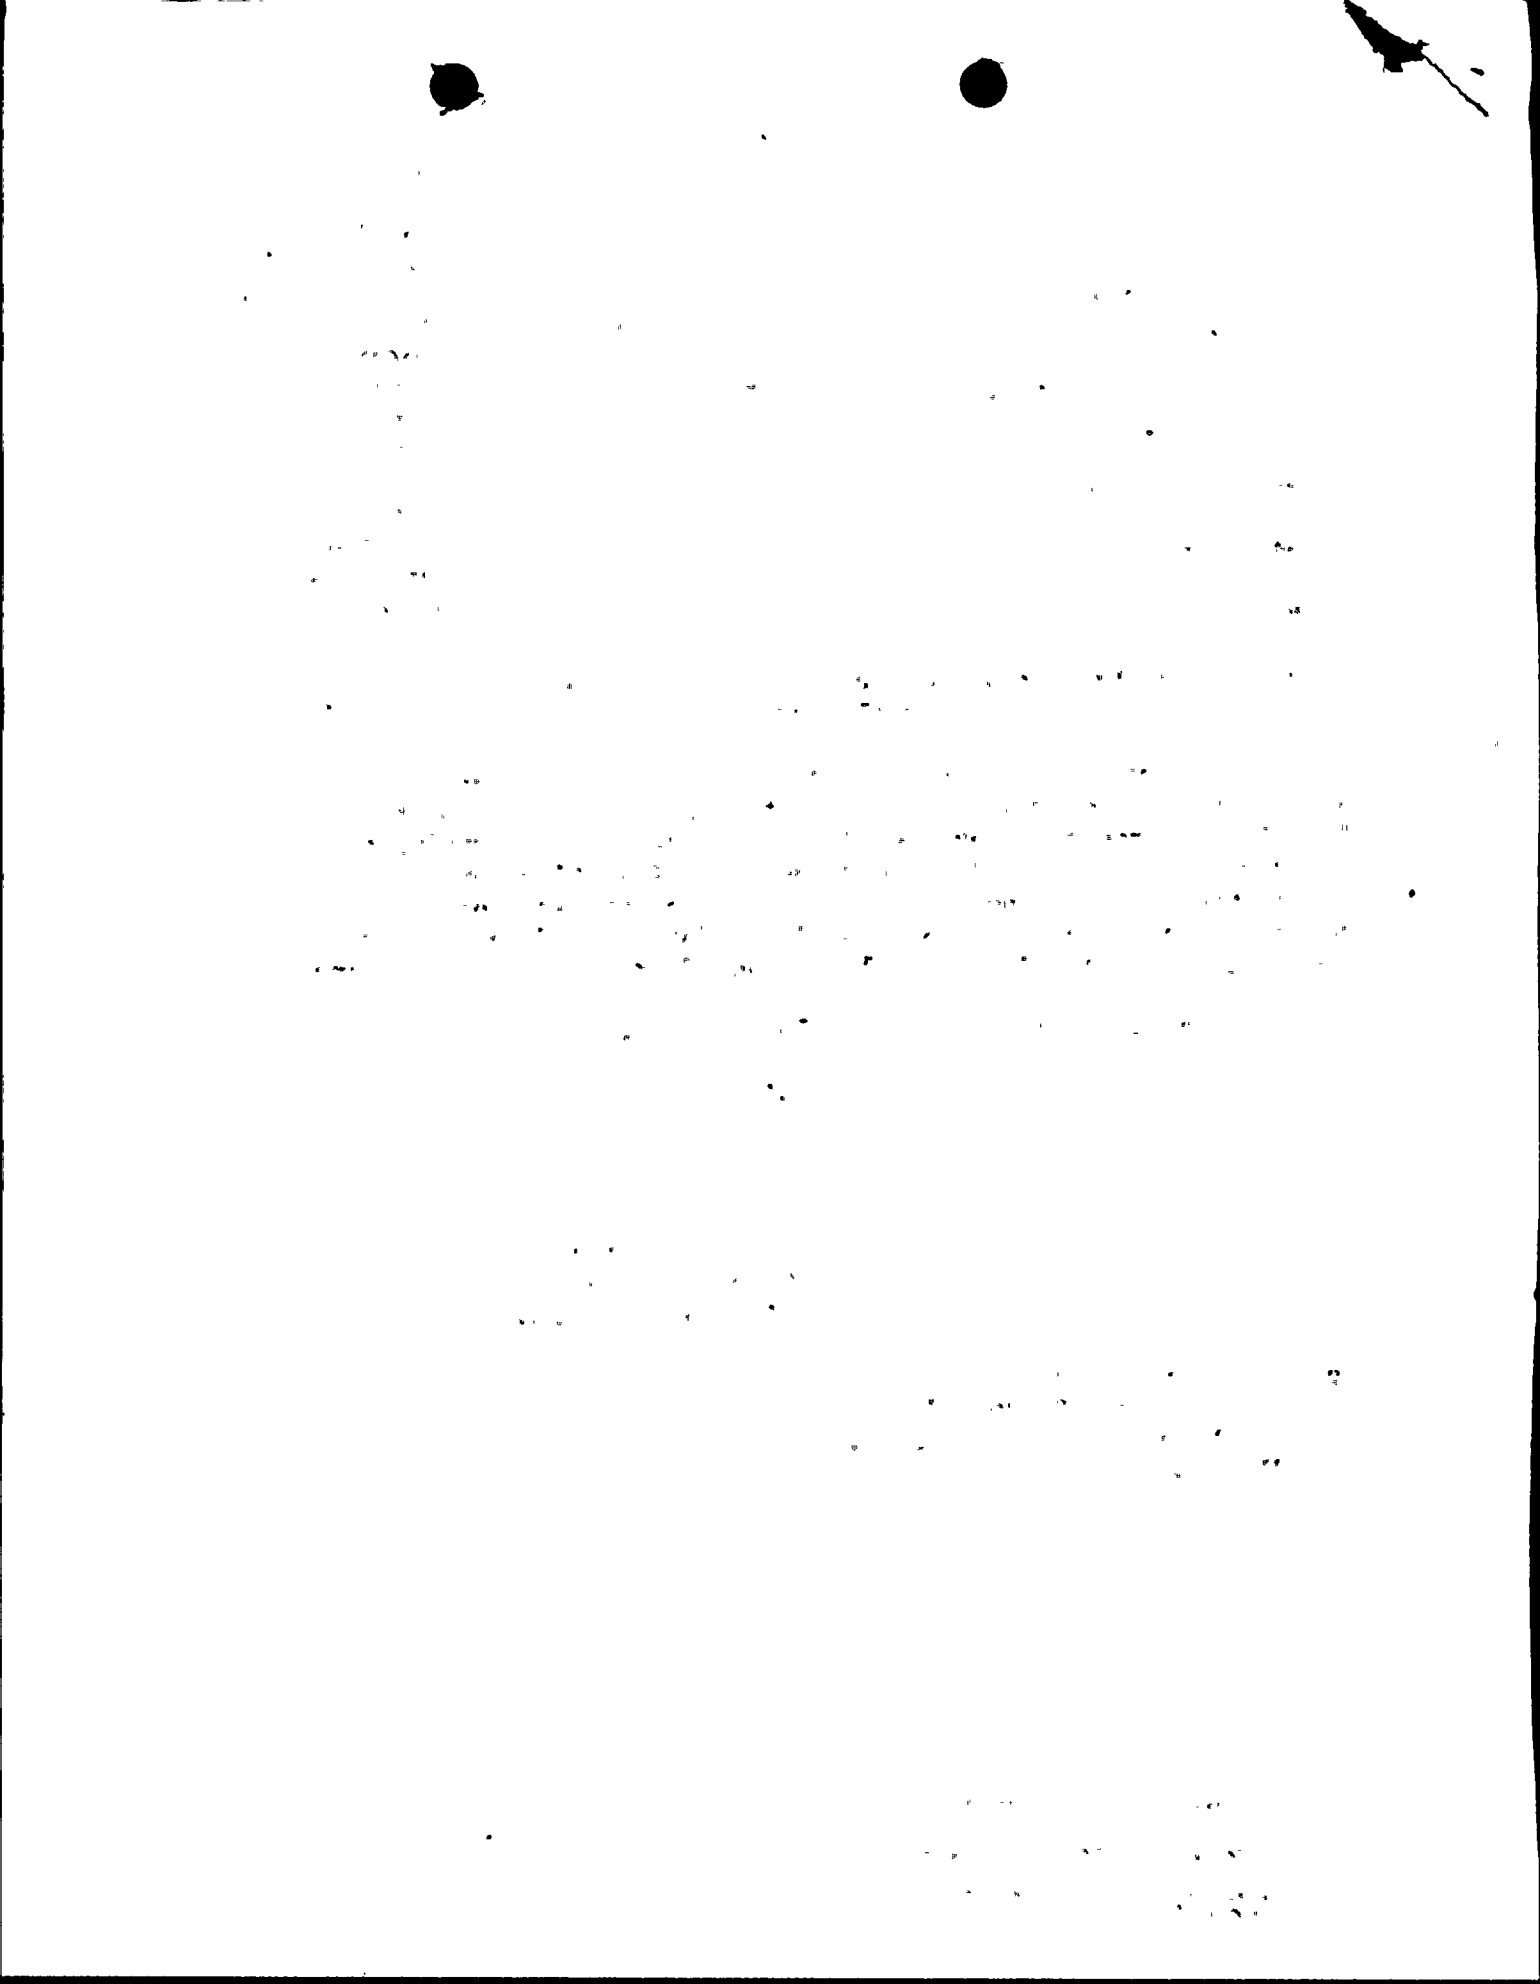

ORIGINAL SIGNED BY
P. F. COLLINS

Paul F. Collins, Chief
Operator Licensing Branch
Division of Reactor Licensing

Dear Sir:

In a telephone conversation on January 14, 1975, between Mr. Paul Collins (AEC) and Mr. K. E. Beatty (FPL), a request was made by Mr. Beatty to extend the date from January, 1975, to March, 1975, for the annual licensed operator requalification examination at the Turkey Point Plant. In discussing the request, it was determined that the requalification program at Turkey Point actually began in March, 1974, after the operators had returned to work from the three-month work stoppage. Mr. Collins then agreed that it would be all right to extend until March, 1975, the date of the annual requalification program examination. Mr. Beatty then asked if the Turkey Point Senior Operator examination, to be given shortly to the Reactor Operators that are desiring upgrading to Senior Operator, would count for their annual examination. Mr. Collins agreed that successful completion of this examination would also be acceptable as their annual requalification examination. However, if any of these desiring upgrading are unsuccessful in passing the Senior Operator examination, they will then be required to take and pass the annual requalification examination for their classification at Turkey Point.

The other licensed personnel at Turkey Point that are not desiring upgrading will be examined, as agreed, in March, 1975.

Should you need any additional information, please contact me.

Very truly yours,

A handwritten signature in dark ink, appearing to read "J. K. Hays", is written over the typed name.
