Regulatory Docket File

October 28, 1975  
L-75-524

Director of Nuclear Reactor Regulation  
Attention: Mr. George Lear, Chief  
Operating Reactors Branch No. 3  
Division of Reactor Licensing  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555

Dear Mr. Lear:

TURKEY POINT UNITS 3 AND 4  
DOCKET NOS. 50-250 AND 50-251  
MAIN STEAM ISOLATION VALVES

Your letter of May 27, 1975, requested information concerning the Turkey Point Units 3 and 4 main steam isolation valves. Our letter L-75-237 of July 3, 1975, stated that a complex analysis would be necessary to provide this information, and that we planned to evaluate the analytical results and respond to your request by November 1, 1975.

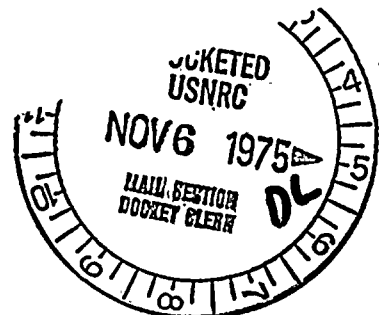

We are now reviewing a preliminary report which we recently received from the organization contracted to do the analysis. We have not had time to thoroughly evaluate the results of the analysis and estimate that it will take an additional 90 days to complete our review and submit the information you requested. Therefore, we now propose to submit this information by February 1, 1976.

Very truly yours,

Robert E. Uhrig  
Vice President
