Dear Mr. Lear:

Re: Turkey Point Units 3 and 4
Docket Nos. 50-250 and 50-251
HP Supervisor Requirements

Our letter of May 9, 1977 (L-77-142) stated that we were preparing a proposed Technical Specification amendment to meet the intent of Regulatory Guide 1.8, September, 1975, and that we planned to submit it by June 15, 1977. We have prepared the amendment and it has been sent to the Turkey Point Plant Nuclear Safety Committee (PNSC) and Florida Power & Light Company Nuclear Review Board (CNRB) for review.

The purpose of this letter is to advise you that we have extended our planned submittal date to July 15, 1977 in order to accommodate routine review by the PNSC and CNRB.

Very truly yours,

Robert E. Uhrig
Vice President
