Mr. Benard C. Rusche, Director  
Office of Nuclear Reactor Regulation  
U. S. Nuclear Regulatory Commission

Dear Mr. Rusche:

TURKEY POINT PLANT  
DOCKET NOS. 50-250 AND 50-251  
ANNUAL OPERATING REPORT

We have reviewed your letter of November 30, 1976 and the enclosed model annual report.

We have determined that the model is not appropriate for our 1976 annual operating report. Since the report is almost completed for 1976, to reformat and research the additional research information would delay its submittal beyond the date required by Technical Specifications.

We agree in principal that the consistant arrangement of annual operating reports would be desirable. However, the proposed model exceeds the requirements of the plant Technical Specifications, Regulatory Guide 1.16 and requires repetition of information submitted in special reports required by Technical Specification. We plan to study the model further to determine if it can be useful for future reports.

Very truly yours,

Robert E. Uhrig  
Vice President
