Regulatory Docket File

U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Re: Florida Power & Light Company - Turkey Point

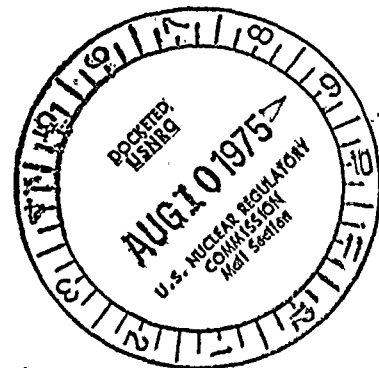

Gentlemen:

I have read newspaper accounts recently that Florida Power & Light Company has applied for permits to construct two more nuclear plants adjacent to the Turkey Point site in Dade County, Florida. I have also read that they have deferred construction of these plants, but request that the Commission continue to process their license applications. I would appreciate it very much if you could inform me whether applications have been filed or are anticipated after preliminary conferences with the staff, for Turkey Point. If so, what kind of reactors have they requested permission to build and what is the present status of the applications?

Sincerely yours,

Paul Siegel
