Dear Mr. [Name],

I have received your letter of the 15th and am sorry that I cannot give you a more definite answer at this time.

The matter is being reviewed and I will contact you again as soon as a final decision has been reached.

I am sure that you will understand the need for thoroughness in this process.

Very truly yours,

Office of Nuclear Reactor Regulation  
Attention: Mr. Victor Stello, Director  
Division of Operating Reactors  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555

Dear Mr. Stello:

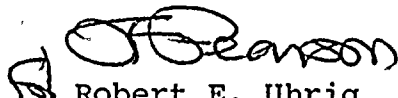

Re: Turkey Point Unit 4  
Docket Number 50-251

On March 1, 1978, Florida Power & Light Company forwarded to you a report of the current steam generator inspection and the preventative plugging program for Turkey Point Unit 4. This report supports the operation of Turkey Point Unit 4 for in excess of six effective months following the inspection. The steam generators will be reinspected during the next refueling outage.

In accordance with paragraph 3.D of Facility Operating License DPR-41, Florida Power & Light Company requests NRC approval to return Turkey Point Unit 4 to operation. This approval is requested by March 7, 1978 so as not to delay the return to power of the Unit.

The Turkey Point Plant Nuclear Safety Committee and the Florida Power & Light Company Nuclear Review Board have reviewed this request. They have concluded that the operation of Unit 4 for in excess of an additional six effective months will not endanger the health and safety of the public.

Very truly yours,

Robert E. Uhrig  
Vice President
