

CHIEF FINANCIAL  
OFFICER

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D.C. 20555-0001

September 26, 2018

Detroit Edison Company  
ATTN: Keith Polson  
6400 N. Dixie Highway  
Newport, MI 48166

Dear Mr. Polson:

The U.S. Nuclear Regulatory Commission (NRC) identified an error related to the amount billed to Detroit Edison Company under Title 10 of the Code of Federal Regulations (10 CFR), Part 170.11(a)(2). The code states that "No application fees, license fees, renewal fees, inspection fees, or special project fees shall be required for: A contested hearing conducted by the NRC on a specific application or the authorizations and conditions of a specific NRC license, certificate, or other authorization, including those involving individual plant security modifications."

Staff from the Office of the Chief Financial Officer (OCFO) has worked with the staff from the Office of New Reactors to identify the billable Cost Activity Codes that were used to charge time spent on contested hearing activities. The staff reviewed and validated charges dating back six years to October 2011, in accordance with National Archives and Records Administration, General Records Schedule 1.1: Financial Management and Reporting Records, Item 010 (Financial transaction records related to procuring goods and services, paying bills, collecting debts, and accounting).

The review determined that \$16,255.00 was incorrectly billed for work on contested hearings for the Fermi Unit 3 application (docket number 05200033). As a result, the NRC will issue a refund to Detroit Edison Company in the amount of \$16,255.00. Please note that since this error occurred, NRC has implemented internal control measures to prevent a reoccurrence of this type of error.

I sincerely regret any inconvenience this may have caused. If you have questions related to this matter, please contact Ms. Min Lee of OCFO at 301-415-0502 or [Min.Lee@nrc.gov](mailto:Min.Lee@nrc.gov).

Sincerely,

*/RA/*

Maureen E. Wylie,  
Chief Financial Officer
