to the NRC (Nuclear Regulatory Commission) against the Holtec Project, the temporary (120 years) high level radioactive waste dump proposed for southeast New Mexico.

-I do not consent to storage of high level radioactive waste in New Mexico

-I oppose the transport of "spent fuel" across the country by rail.

-I submit the following for scoping comments for the Environmental Impact Statement (EIS):

- 1) More alternatives must be analyzed and considered
- 2) All transportation routes and risks must be analyzed and made public
- 3) More public meetings should be held along transport routes
- 4) Impacts of permanent storage must be analyzed
- 5) Cumulative impacts must be analyzed
- 6) Exposure risks to individuals must be analyzed
- 7) Cracked and leaking canisters must be addressed
- 8) Holtec must remove all redactions from their Environmental Report
- 9) A thorough Environmental Justice Analysis must be included.
