Ms. Roman

The Wyoming Department of Environmental Quality (WDEQ) appreciates the opportunity to comment on the Environmental Assessment (EA) for Cameco Resources proposed license renewal. At this point the WYDEQ has no comments on the EA itself.

The WDEQ would like to point out an error in the letter addressed to Robin Jones on August 8th, 2018. The end of the second paragraph states "The NRC concludes in the draft EA that approving the license renewal request would significantly affect the quality of the human environment." This appears to be contradictory to the recommendation presented in the EA. Please confirm if this is a typographical error.

Sincerely

Ryan Schierman
WYDEQ/LQD
