Auburn, Michigan 48611

SUBJECT: DOW CORNING CORPORATION – NOTIFICATION TO CEASE PRINCIPAL
ACTIVITIES FOR DC3 BUILDING UNDER LICENSE 21-08362-08
(MAIL CONTROL NUMBER 609668)

Dear Ms. Wegener:

This refers to a letter dated July 24, 2018 (ML18228A804) notifying the U.S. Nuclear Regulatory Commission (NRC) of the licensee's intention to cease principal activities at DC3 Building under License No. 21-08362-08 (Mail Control Number 609668). The licensee notified the NRC in accordance with 10 CFR 30.36.

In accordance with Title 10 of the *Code of Federal Regulations* (CFR) 30.36(d), the licensee can begin decommissioning so that the building is suitable for release in accordance with NRC requirements or submit within 12 months of notification a decommissioning plan, if required by 10 CFR 30.36(g)(1).

When a licensee permanently ceases principal activities at a building, outdoor area or site, the NRC considers the facility to transition from operational to decommissioning, for fee-billing purposes, and the fees you will be assessed may change. Please contact the NRC to discuss your plans to decommission your site and the impacts it will have on your fee-billing.

If you have any questions concerning the decommissioning process or the requirements for the decommissioning of your facility, you may contact Michael LaFranzo of the Materials Control, ISFSI, and Decommissioning Branch at 630-829-9865.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC's Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC's website at <http://www.nrc.gov/reading-rm/adams.html>.

K. Wegener

2

Any correspondence regarding the decommissioning of your facility should reference the control number specified below, and your license and docket number.

Sincerely,

/RA/

Michael M. LaFranzo, Senior Health Physicist
Materials Control, ISFSI, and
Decommissioning Branch
Division of Nuclear Materials Safety
