## NRC Inspection Report Response

Mr. VonEhr,

F.R. Bell & Associates has completed the necessary tasks to return our portable nuclear gauge to Seaman Nuclear Corporation. The Gauge is currently in transit back to Seaman's and will no longer be utilized by F.R. Bell & Associates, Inc. As a result, we will be terminating our license, and there is no need to identify any corrective actions taken in response to the violations identified in your report beyond those that were already completed (and identified in your report) to get us back into compliance while storing the gauge up to this point.

Once the gauge is back in the possession of the Seamans Nuclear Corporation, they will provide F.R. Bell with a confirmation letter that we will forward to the NRC immediately upon receipt. If there is any other documentation or information needed, please let me know and I will provide it as soon as possible.

Thank you,

Frank T. Bell  
CEO
