

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

October 10, 2018

Ms. Loren Sweatt
Occupational Safety and Health
Administration
200 Constitution Avenue
Washington, DC 20210

SUBJECT: NOTICE OF AGREEMENT WITH THE STATE OF WYOMING

Dear Ms. Sweatt:

This is to inform you that the U.S. Nuclear Regulatory Commission (NRC) has approved an Agreement with the State of Wyoming under Section 274 of the Atomic Energy Act of 1954, as amended (the Act). The Commission has determined that the Wyoming program for the regulation of materials covered by the Agreement is compatible with the Commission's program and is adequate to protect public health and safety. Under this Agreement, Wyoming has assumed regulatory authority over the management and disposal of byproduct material as defined in Section 11e.(2) of the Act and a subcategory of source material or ores involved in extraction or concentration of uranium or thorium milling in the State. As such, the State of Wyoming has assumed regulatory authority over 14 uranium mill licenses. The remaining academic, medical, industrial and commercial licenses authorized to use byproduct, source and special nuclear materials in the State of Wyoming will remain under NRC's jurisdiction. The Agreement became effective on September 30, 2018.

The NRC staff will conduct periodic reviews of the Wyoming program to ensure that the terms of the Agreement continue to be met.

If you have any questions, you may contact Paul Michalak at (301) 415-5804 or via e-mail at Paul.Michalak@nrc.gov.

Sincerely,

/RA/

Daniel S. Collins, Director
Division of Materials Safety, Security, State,
and Tribal Programs
Office of Nuclear Material, Safety,
and Safeguards

October 10, 2018

Mr. Theodore J. Garrish
Principle Deputy Assistant Secretary
Congressional and Intergovernmental Affairs
U.S. Department of Energy N3641
1000 Independence Ave, SW
Washington, DC 20585-0001

SUBJECT: NOTICE OF AGREEMENT WITH THE STATE OF WYOMING

Dear Mr. Garrish:

This is to inform you that the U.S. Nuclear Regulatory Commission (NRC) has approved an Agreement with the State of Wyoming under Section 274 of the Atomic Energy Act of 1954, as amended (the Act). The Commission has determined that the Wyoming program for the regulation of materials covered by the Agreement is compatible with the Commission's program and is adequate to protect public health and safety. Under this Agreement, Wyoming has assumed regulatory authority over the management and disposal of byproduct material as defined in Section 11e.(2) of the Act and a subcategory of source material or ores involved in extraction or concentration of uranium or thorium milling in the State. As such, the State of Wyoming has assumed regulatory authority over 14 uranium mill licenses. The remaining academic, medical, industrial and commercial licenses authorized to use byproduct, source and special nuclear materials in the State of Wyoming will remain under NRC's jurisdiction. The Agreement became effective on September 30, 2018.

The NRC staff will conduct periodic reviews of the Wyoming program to ensure that the terms of the Agreement continue to be met.

If you have any questions, you may contact Paul Michalak at (301) 415-5804 or via e-mail at Paul.Michalak@nrc.gov.

Sincerely,

/RA/

Washington, DC 20503-0002

SUBJECT: NOTICE OF AGREEMENT WITH THE STATE OF WYOMING

Dear Mr. Boling:

This is to inform you that the U.S. Nuclear Regulatory Commission (NRC) has approved an Agreement with the State of Wyoming under Section 274 of the Atomic Energy Act of 1954, as amended (the Act). The Commission has determined that the Wyoming program for the regulation of materials covered by the Agreement is compatible with the Commission's program and is adequate to protect public health and safety. Under this Agreement, Wyoming has assumed regulatory authority over the management and disposal of byproduct material as defined in Section 11e.(2) of the Act and a subcategory of source material or ores involved in extraction or concentration of uranium or thorium milling in the State. As such, the State of Wyoming has assumed regulatory authority over 14 uranium mill licenses. The remaining academic, medical, industrial and commercial licenses authorized to use byproduct, source and special nuclear materials in the State of Wyoming will remain under NRC's jurisdiction. The Agreement became effective on September 30, 2018.

The NRC staff will conduct periodic reviews of the Wyoming program to ensure that the terms of the Agreement continue to be met.

If you have any questions, you may contact Paul Michalak at (301) 415-5804 or via e-mail at Paul.Michalak@nrc.gov.

Sincerely,

/RA/
