---

Andrew,

Thank you for your email, we will add to ADAMS.

Just to clarify, we have August 22, 2017 (rather than August 21, 2017) as the date of the third fueled experiment submittal (as shown in ADAMS Accession No. ML17237A205).

**Subject:** [External\_Sender] Withdrawal of License Amendment Requests for Fueled Experiments

Duane,

The North Carolina State University PULSTAR Reactor (R-120) is withdrawing license amendment requests regarding fueled experiments dated 13 Feb 2013, 12 Jan 2017, and 21 Aug 2017. A new amendment request for fueled experiments has been submitted for review on 27 Aug 2018.

Let me know if you have any questions.

Thanks, Andrew
