**To:** 'kimberly.kuhls@ge.com'  
**Subject:** Request for additional information regarding NRC License No. SNM-1826

Dear Ms. Kuhls:

We have reviewed your amendment request dated August 23, 2018. In the letter, you request to name Carl Jindra as an authorized user for all licensed materials. We determined that the information regarding training and experience for Mr. Jindra did not cover all of the criteria for acceptable training and experience for authorized user discussed in NUREG-1556, Vol. 17, Rev. 1, Appendix M.

Please provide additional information describing Mr. Jindra's training and experience that he has completed the radiation safety training and passing the test as discussed in the NUREG above, including, but not limited to, the training with your operating and emergency procedures, license conditions, NRC regulations (10 CFR Parts 19, 20, and 70, and 30, 31, 32, and 71, as applicable), and storage, control, and dispose of licensed materials. In addition, please provide more details of his hands-on training, such as, the isotopes use, physical form, quantities handled, activities performed, duration of experience, and has passed the practical examination assessed by the RSO.

For your references, a copy of NUREG-1556, Vol. 17, Rev. 1 can be found on the NRC's webpage at <https://www.nrc.gov/docs/ML1819/ML18190A207.pdf>.

Please provide a response in writing with a proper signature by October 19, 2018. You could fax the response to 630-515-1078 or scan and email as a pdf to [frank.tran@nrc.gov](mailto:frank.tran@nrc.gov). In addition, please reference Mail Control No. 609700 in the response to facilitate proper handling of correspondences in our office.

Please let me know if you have any question regarding the above.

Thank you,

*Frank Tran*
