SUBJECT

Discuss draft technical requests for supplemental information (RSIs) for the Humboldt Bay Independent Spent Fuel Storage Installation (ISFSI) renewal application and agree upon expected response from PG&E.

SUMMARY

A teleconference was held between NRC and PG&E to discuss the draft technical RSIs on the Humboldt Bay ISFSI renewal application, which were provided to PG&E on September 13, 2018. A list of the participants is provided on page two.

The purpose of the call was to: (1) ensure a common understanding of the RSIs; (2) ensure that the RSIs are not already addressed in the current submittal; and (3) establish an appropriate response date for PG&E to respond to the RSIs.

The participants came to a common understanding on both RSIs. The parties agreed to an RSI response date of 30 days after the issuance of the RSI letter.

Continue on Page 2

ACTION REQUIRED (IF ANY)

No follow up actions were identified for the NRC beyond issuance of the RSI letter.
