VIRGINIA ELECTRIC AND POWER COMPANY
NORTH ANNA POWER STATION (NAPS) UNITS 1 AND 2
SURRY POWER STATION (SPS) UNITS 1 AND 2
PROPOSED CONSOLIDATED EMERGENCY OPERATIONS FACILITY
RESPONSE TO REQUEST FOR CLARIFICATION

By letter dated January 16, 2018 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML18025B468), Virginia Electric Power Company (Dominion Energy Virginia), requested the U.S. Nuclear Regulatory Commission (NRC) to approve license amendment requests (LAR) revising the emergency plans for North Anna and Surry Power Stations (NAPS and SPS, respectively) Units 1 and 2. The proposed amendments would consolidate the NAPS and SPS local emergency operations facilities (EOFs), their common back-up central EOF, and their headquarters support organization. By email dated May 1, 2018, the NRC transmitted a request for additional information (RAI) related to the LAR. Dominion Energy Virginia responded to the NRC staff's RAI by letter dated June 13, 2018 (ADAMS Accession No. ML18169A224). The NRC staff reviewed that response and identified one item requiring additional clarification. By email dated July 25, 2018, the NRC stated that it appears Dominion Energy Virginia is still requesting a change to allow an extension of the currently approved augmentation timing from 60 to 75 minutes for staffing the NAPS emergency response positions and requested that we clarify and supplement our response to RAI-4 by submitting additional justification for this change. The requested clarification and justification is provided in the attachment.

If you have any questions or require additional information, please contact Ms. Diane E. Aitken at (804) 273-2694.
