Subject: NRC Form 314, Certificate of Disposition of Materials for North Hawaii Community Hospital License # 53-29099-01

Importance: High

Good Morning Ms. Mortensen: I'm processing and performing the technical review of the termination action for North Hawaii Community Hospital (NHCH) (License No. 53-29099-01) concurrent with the issuance of the amendment to The Queen's Medical Center license (License No. 53-16533-02) and I noticed that NRC Form 314, Certificate of Disposition of Materials for NHCH was completed by Mr. Dale Schippers, RSO for The Queen's Medical Center. Please note that this is unacceptable. A licensee cannot request a new license, an amendment to a license including termination, or renewal of a license on behalf of another licensee. New license applications, amendments to the license, including termination, or license renewals must come from the licensee's management representative or delegate who is requesting the licensing action.

Please resubmit NRC Form 314 (https://www.nrc.gov/reading-rm/doc-collections/forms/) for NHCH signed and dated appropriately by NHCH management as the letter dated November 30, 2017, requesting termination of NHCH license was signed by the President, Ms. Cindy Kamikkawa, RN, MS. Please resubmit this form to me by COB tomorrow, Thursday, April 5, 2018. If additional time is needed to resubmit NRC Form 314, please do not hesitate to contact me at the phone numbers or email address noted below to discuss. In addition, please forward this email to Ms. Donna Wilburn who is identified as a contact in the November 30, 2017 termination request letter.

I apologize for any inconvenience this may have caused.

Thank you in advance for your prompt response and understanding in this matter.

Sincerely,

Jackie
