Attachments: [Seabrook SER Sections on Alkali 9-18-18.docx](#)

Kent,

Attached is the same set of ASR-AMPs that I sent you on 9-18-18. It contains

- 1) Open Item per the SER
- 2) ASME IWL Program
- 3) Structures Monitoring Program
- 4) ASR Monitoring Program
- 5) Building Deformation Program

This draft document reflects the staff's completed review. It is draft only because it has not completed the technical editing process. The staff does not expect the technical editing to result in any changes to its conclusions on the AMPs.

Regards,
Evelyn Gettys
