Dear Mr. DeLaBarre:

Enclosed is an application received by the U.S. Nuclear Regulatory Commission (NRC), dated September 19, 2018, from ISOFLEX Radioactive, LLC, for a specific license (PXB225.00) to export Category 1 and 2 quantities of Iridium-192, Selenium-75 and Ytterbium-169 to Israel. The sealed source will be used for industrial radiography.

Since Israel is on the restricted destinations list (10 CFR Part 110.29), before taking action on this new request, we would appreciate your views, in accordance with established procedures and from the overall perspective of the Executive Branch, as to whether the requested export meets the applicable criteria in the Atomic Energy Act of 1954, as amended.

Sincerely,

A handwritten signature in black ink, appearing to read "Peter J. Habighorst".
