**SUBJECT: ISSUANCE OF AMENDED REGISTRATION CERTIFICATE
NR-0348-D-111-B**

Dear Ms. Anaya:

This is in response to Agilent Technologies, Inc.'s letter dated July 27, 2018, requesting an amendment to add a new model of gas chromatographs and updates to the information in the registry. We have completed your request. A copy of the amended registration certificate NR-0348-D-111-B is enclosed.

Please be advised that you must manufacture and distribute the product in accordance with the statements and representations contained in your application, with enclosures thereto, and the information set out in your registration certificate. As a general rule, you must request and obtain an amendment to the certificate before you make changes or modifications to the information submitted to obtain the certificate.

Note that a certificate of registration, by itself, does not convey authorization for possession or distribution of radioactive sources or devices. A U.S. Nuclear Regulatory Commission or Agreement State license is required for possession and distribution of radioactive materials, sources, or devices.

Please read over the registration certificate in its entirety and notify us immediately of any errors or omissions.

You are obligated to notify us promptly in writing should you decide to no longer manufacture, distribute, or offer service support for the product.

E. Anaya
