Dear Ms. Brattin:

The Annual Report on the Effectiveness of Training at Operating Power Reactors for Calendar Year 2017 is enclosed. In the report, we conclude that accredited training programs at operating power reactors continue to meet the Systems Approach to Training requirements contained in 10 CFR Parts 50 and 55. The NRC observed the National Nuclear Accrediting Board (NNAB) and evaluated industry trends related to training. Licensees and the NNAB are generally identifying and correcting training issues at a level that support safe operation. If you have questions on any of the topics discussed in this report please contact me at (301) 415-1004 or Ms. Aida Rivera-Varona, Chief of the Operator Licensing Branch at (301) 415-4001.

Sincerely,
