I oppose Waste Control Specialists (WCS) in West Texas, which seeks to open a de facto permanent parking lot dump for up to half the commercial high-level radioactive waste in the U.S., upstream of the Ogallala Aquifer, vital drinking and irrigation water supply for numerous High Plains states, from Texas to South Dakota.

The region around WCS has a high proportion of low income, Latin American residents, and is already heavily burdened with nuclear activities (radioactive waste dumping, uranium enrichment, etc.) and dirty fossil fuel industries (widespread, heavily polluting oil extraction and natural gas fracking). WCS would launch unprecedented numbers of high-risk irradiated nuclear fuel train (and even barge) shipments through many states.

For these reasons and many more, I am opposing the WCS/ISPP scheme.

Sincerely,
Allison Ostrer
Voter, taxpayer, small business owner
