Subject: [External_Sender] no permanent parking lot dump

The region around WCS has a high proportion of low income, Latin American residents, and is already heavily burdened with nuclear activities (radioactive waste dumping, uranium enrichment, etc.) and dirty fossil fuel industries (widespread, heavily polluting oil extraction and natural gas fracking). WCS would launch unprecedented numbers of high-risk irradiated nuclear fuel train (and even barge) shipments through many states.

Thanks
Judi Poulson
