Mr. Daniel R. Muller  
Assistant Director for Environmental Projects  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555

Dear Mr. Muller:

The purpose of this letter is to file the monthly fish impingement report for July 1975 for the Browns Ferry Nuclear Plant units 1 and 2 (Facility Operating Licenses DPR-33 and DPR-52) as required by the environmental technical specifications. Weekly counts were conducted and the appropriate weighting factors applied for July 1975. The data sheets with calculated fish impingement estimates are enclosed.

The scheduled bimonthly 2-day weighting factor evaluation was conducted during the week of July 20-26, 1975, and the resulting weighting factors were applied to subsequent counts. Results of this weighting factor evaluation are also enclosed.

The Browns Ferry fish pump test facility was returned to an operative condition on July 13, 1975.

Very truly yours,

*J. E. Gilleland*
